# StudentKeeper Gives Teachers Back Their Most Valuable Resource: TIME

StudentKeeper empowers teachers and safeguarding leads with a comprehensive classroom management, key word alerting, and content filtering solution. StudentKeeper intelligently triages data on the child's chronology to provide holistic support inside and outside the classroom. This ensures education establishments spot trends early and become proactive to safeguarding concerns.

## Key Features

- ✓ Seamless integration with CPOMS

- ✓ Well-being categories drive intelligent and accurate screen captures to promote student safety.

- ✓ Device locking, in-class internet controls, device management, and student-teacher communication tools keep students on task.

- ✓ AI Assistant automatically spots trends and raises concerns, saving teachers and safeguarding leads valuable time.
